| 11:00 | Set date for October 2002 meeting, adjourn for a demonstration of the Quake Cottage earthquake simulator by Safe-T-Proof. The simulator makes evident the need for non-structural seismic fastening. | |

AGENDA News Items

Election of the new Chair. If any Commissioner is interested in serving as the Chair in the upcoming year, please contact Pete McDonough at (801) 544-0369.

The future of USSC. At this next meeting, we wish to discuss each Commissioner's vision of the future of the Commission. To assist in our discussion, we have included some questions which we hope will stimulate some forethought on the topic. We would also like each Commissioner to come prepared to share his or her viewpoint on each question.

1. If you were to write a newsletter article for your professional organization on how your organization has been represented on the Commission, what would it say?
2. What has your representation on the Commission meant?
3. What do you feel the Commission should be accomplishing?
4. Why should the Commission continue?
5. Why can't the work of the Commission be done by some other agencies, organizations, etc?
